Summary

- Proven ability to jump into projects and learn new technologies quickly.
- Proven ability to quickly create prototypes (proof of concept prototyping).
- Proven track record of initiating and delivering successful projects and SaaS products.

Professional Experience

Chapter Three – San Francisco, CA

Senior Drupal Developer, June 2015 – Present

- Developed Document OCR module (PDF processing) with ability to extend via Plugin API.
- Integrated third-party systems (AppleNews, Google Document AI, OpenAI, Azure etc).
- Data migration from non-Drupal into Drupal 8 for ETOOnline.
- Integrated SSO (SimpleSAMLphp with ADFS and PingOne, OAuth, Auth0)
- Performed database migrations Drupal to Drupal and non-Drupal to Drupal.
- One of the principal developers of the Apple News module and AppleNewsAPI PHP library.
- Implemented solution to manage data matrix from the spreadsheets (with worksheets and cross-reference between them).
- Implemented various complex business solutions for high profile clients using Drupal.

Urban Insight, Inc – Los Angeles, CA

Web Developer, September 2009 – June 2015

- Developed and maintained high-traffic news websites (NeonTommy.com, ATVN.org).
- Collaborated with client's developer teams to solve various project related issues.
- Performed internal semi-weekly code reviews of other developers to improve their code.
- Participated in internal kick-off project meetings and provided estimates.
- Presented various project overviews, technical details to other internal developers to enhance their skills.
- Integrated Drupal with various third-party services such as Salesforce, Facebook, Twitter, Mailchimp, Google Maps, Constant Contact.
- Developed video courses platform (Planetizen Courses) for Urban Planners.
- Developed custom e-commerce system for Planetizen – urban planning news website.
- Implemented recurring payments with Authorize.net.

Freelance

- Built Chrome extension (video, screen capture application) for a startup company.
- Shopify development (front-end).
- Drupal 9-10 module development.
- Various high profile client maintenance (DWELL, Williams-Sonoma, Inc, Digital Realty, MagMutual, Linguistic Society of America).

Education

Tyumen State University – Tyumen, Russia
Master's Degree in Computer Science, 2003 – 2009

- Emphasis on System Engineering and Information Technologies.

Numbers

Chapter Three.

- At Chapter Three, I maintained over **220** websites.
- Migrated over **70** websites from .NET system to Drupal 7.
- Wrote over **30** blog posts on a company website about Drupal development.
- Over than **95%** of all projects launched on time.

Urban Insight, Inc.

- At Urban Insight, Inc, I launched and maintained around **50** websites.
- About **94%** of them build using Drupal. **1%** WordPress sites. **5%** of .NET projects.
- I maintained around **26%** of all those projects. In average I maintain **3-5** sites at a time.
- Around **80%** of my estimates are correct and features are implemented within the estimate or even in less time.
- Around **30%** of projects were migrated either from other CMS or older versions of Drupal to the most recent.
- My salary has grown over **175%** since I started working at the company.
- Custom e-commerce module I developed increased the number of sales on one of the sites by about **10%**.
- Over than **95%** of all projects launched on time.

Freelance

- I maintained around **10** sites on my spare time.
- **5** of them nationally recognized companies.
- **100%** of all projects delivered on time.
- **90%** of my clients are hiring me for their new projects.

Hobbies

- I am constantly building small side projects using React/NextJS, PHP and when I have time poking around Swift for MacOS/iOS development.
- Built several successful open source projects: Wordpress (**7000+** sites using one of the plugins – removed as of today and will be replaced with a new plugin) and Drupal modules (one of them installed on over **1900+** sites and I maintain a module that's installed on **11000+** sites.).
- Oil painting, photography and some epoxy resin.
- Traveling and exploring different cultures.
